Ken and Scott,

I hope you are doing well. It was good seeing you both in Tulsa at the EFO conference and thanks for adjusting the schedule so that I could get back home.

I wanted to let you know that we have started tribal consultation on EPA's pending approval of the Oklahoma Department of Environmental Quality (ODEQ) 2021 Annual Network Monitoring Plan (ANP) and acknowledgement of receipt of ODEQ's 2021 [sulfur dioxide] SO2 Data Requirements Rule (DRR) Annual Report. Attached is a copy of the letter to Tribal leaders and information.

Best,

David
